Final act	
Regulation 2004/1690 OJ L 305 01.10.2004, p. 0001-0002	Summary

Re-exportation and re-dispatch of products covered by the specific supply arrangements

2004/0051(CNS) - 24/09/2004 - Final act

PURPOSE : to restrict speculative dealing in products covered by the special supply arrangements.

LEGISLATIVE ACT : Council Regulation 1690/2004 amending Regulations 1452/2001/EC, 1453/2001/EC and 1454/2001/EC as regards the conditions for the re-exportation and re-dispatch of products covered by the specific supply arrangements.

CONTENT : Regulations 1452/2001/EC and 1453/2001/EC authorise exports of processed products to third countries in order to encourage regional trade and traditional consignments of processed products.

Regulation 1454/2001/EC authorises traditional exports and consignments of processed products. It also authorises exports of products in their unprocessed state or products resulting from local packaging of such products, under certain conditions to be laid down by the Commission, including reimbursement of aid or payment of import duties.

This Regulation provides that in order to allow economic activity to be developed in the outermost regions, the exportation or dispatch of products covered by specific supply arrangements should be authorised after the aid has been reimbursed or import duties have been paid.

Furthermore, since trade in products covered by specific supply arrangements between the Azores and Madeira has resulted in some speculative transactions, the Regulation provides that such trade in products covered by the specific supply arrangements be restricted only to products processed in these outermost regions.

ENTRY INTO FORCE : 02/10/2004.

Re-exportation and re-dispatch of products covered by the specific supply arrangements

2004/0051(CNS) - 21/04/2004 - Text adopted by Parliament, 1st reading/single reading

The European Parliament adopted a resolution drafted by Joseph DAUL (EPP-ED, France) and approved the Commission proposal.

Re-exportation and re-dispatch of products covered by the specific supply arrangements

2004/0051(CNS) - 09/03/2004 - Legislative proposal

CONTENT : to prevent speculative dealing in products covered by the special supply arrangements. PROPOSED ACT : Council Regulation.
CONTENT : Council Regulations 1452/2001/EC, 1453/2001/EC and 1454/2001/EC aim to adopt specific measures for applying the CAP in the outermost regions (Azores and Madeira, French overseas departments and Canary Islands). These measures are aimed at improving the conditions in which agricultural products are produced and marketed in those regions, and at mitigating the effects of their exceptional geographical situation and constraints. In particular, specific supply arrangements entailing economic advantages were introduced with a view to guaranteeing supplies and mitigating the additional costs of the remoteness, insularity and outermost location of these regions. In order to ensure that the economic advantages of the specific supply arrangements do not provoke diversions of trade in the products concerned, these Regulations prohibit the re-dispatch or re-

exportation of those products from the outermost regions, with a few exceptions. Such a prohibition, and the strict conditions applicable to the exceptions, constitute constraints on the development of certain traders' economic activities. It is proposed that the dispatch or exportation of the products concerned should be authorised after the economic advantage has been reimbursed. Regulation 1453/2001/EC stipulates that the prohibition on re-dispatching and re-exporting the products concerned will not apply to trade flows between the Azores and Madeira. This provision allows trade to be conducted between the Azores and Madeira without any distinction being made between processed and unprocessed products. It has led to sugar from Madeira covered by the specific supply arrangements being the subject of speculative dealing in the Azores, where the market is facing difficulties. It is proposed that such trade in products covered by the specific arrangements for supplies from the Azores to Madeira or vice versa be restricted to processed products alone. BUDGET LINE : 05 02 11 04 : appropriations : EUR 249 million.
