Consumer policy: Community action programme 2007-2013

2005/0042B(COD) - 06/04/2005 - Initial legislative proposal

PURPOSE : proposal to establish a Programme of Community action in the field of Health and Consumer protection 2007-2013 to improve EU citizens' quality of life in terms of their health and their consumer interests.

PROPOSED ACT : Decision of the European Parliament and of the Council.

CONTENT : the proposal and the Commission's Communication bring together Public Health and Consumer protection policies and programmes under one framework. This is due to the fact that many objectives of health and consumer actions under Treaty articles 152 and 153 are shared: promoting health protection, information and education, safety and integration of health and consumer concerns into all policies. Health and consumer policies also use many similar types of actions to pursue their objectives e.g. information to citizens, consultation of stakeholders, mainstreaming activities, risk assessment. Bringing the two areas together will thus lead to greater policy coherence, economies of scale and increased visibility.

The EU, national and regional authorities, citizens, businesses and civil society have a role to play in improving the health, wellbeing and welfare of European citizens. There are, however, several shared health and consumer policy challenges that only action at EU level can tackle. Greater mobility and more communication have benefited citizens. But they have also increased the risk of spreading health threats such as SARS and other communicable diseases (which cannot be addressed by individual Member States alone) and scams e.g. from bogus lotteries. The complexity of modern life has brought more choice for citizens. But it has also made it harder for them to make the best choices.

The proposed strategy and programme aim to implement articles 152 and 153 of the Treaty as regards Community action on health and consumer protection, by complementing national action with value-added measures which cannot be taken at national level. Bringing health and consumer protection under a common framework will lead to important synergies in terms of objectives and actions, and enhance policy coherence. Merging the two programmes will also streamline administrative procedures (with a common set of tools and a unified budget) and increase visibility of policy actions vis-à-vis European citizens and within the EU institutions.

EU Health and Consumer policies have three core joint objectives:

- Protect citizens from risks and threats which are beyond the control of individuals and that cannot be effectively and completely tackled by individual Member States alone.
- Increase the ability of citizens to take better decisions about their health and consumer interests. This means increasing the opportunities they have to exercise real choice and also equipping them with the knowledge they need.
- Mainstream health and consumer policy objectives across all Community policies in order to put health and consumer issues at the centre of policy-making. The EU Treaty recognises this by requiring that all policies take health and consumer interests into account.

With regard to health, the Programme reinforces the three strands of the Public Health Programme (information, threats and determinants), and creates three new ones: response to threats, disease prevention and co-operation between health systems. Annex II to the proposal provides an exhaustive list of actions planned under each strand.

With regard to consumer protection, the proposal foresees that a European Consumer Institute created within the single executive agency of the programme will be the cornerstone for implementing the actions. Implementing the programme and managing the additional resources means efficient and structured organisation. The proposal discusses the extension of the Health Executive Agency to include a consumer department as the most cost effective way of proceeding.

Four strands of actions are foreseen:

- Better understanding of consumers and markets. This includes developing and updating its scientific knowledge base and assessment tools on consumer exposure to chemicals, including with respect to general product safety, and to contribute to the application of REACH.

- Better consumer protection regulation;

- Better enforcement, monitoring and redress;

- Better informed and educated consumers.

Actions will contribute to ensure an equally high level of protection for all EU consumers, wherever they live, travel to or buy from in the EU, from risks and threats to their interests. Action covers the safety of goods and services; the fairness of commercial practices and contractual rights for consumers; affordable access to essential services, protection from rogue traders and access to effective means of redress. Actions will also contribute to increase the capacity of consumers to promote their own interests, as individuals or through consumer organisations, i.e., helping consumers help themselves. This includes the provision of information to consumers about their rights, means of redress but also products and the opportunities of the internal market.

For further information concerning the financial implications of this measure, please refer to the financial statement.

Consumer policy: Community action programme 2007-2013

2005/0042B(COD) - 23/03/2006 - Text adopted by Parliament, 1st reading/single reading

The European Parliament adopted a resolution drafted by Marianne **THYSSEN** (EPP-ED, BE) and amended the Commission's proposal. It should be recalled that the Commission had originally suggested a single action programme for health and consumer protection in hopes of achieving more synergies between the two areas. However, following the decision of the Parliament's Conference of Presidents, the integrated programme was separated into two parts in June 2005.

The principal amendments were as follows:

- a new recital states that implementation of the programme should take into account that the internal market will not function properly if consumers are less well protected in some Member States than in others. The programme should therefore put a special focus on strengthening consumer protection and consumer awareness in the new Member States in line with the European Parliament's resolution of 15 December 2005 on the promotion and protection of consumers' interests in the new Member States;

- if the Commission takes a decision to delegate powers in respect of the logistical and administrative aspects of the implementation of the programme, it should do so after a cost-benefit analysis which produces positive results and it should investigate whether it is not preferable to extend the powers of the 'Executive Agency for the Public Health Programme' rather than set up an additional executive agency. Parliament added a new operative clause stating that the overall administrative expenditure of the programme, including internal and management expenditure for any Executive Agency created or extended to administer the programme, should be proportionate to the tasks provided for under the programme and is subject to decision of the budgetary and legislative authorities;

- the aim of the programme is to complement and support the policies of the Member States "by means of added value actions;"

- the objectives of the consumer protection action programme include paying special attention to "the different needs of various age groups", ensuring that consumer protection regulation involved greater participation of consumer representatives, other civil society stakeholders and research bodies, ensuring that such regulation could be complied with by small businesses and craft industries, and providing for both judicial and extra-judicial means of redress;

- the indicative financial framework for the implementation of the programme for the 7-year period beginning on 1 January 2007 specified in Article 1 is EUR 233 460 000;

- the ceilings for Community financing for "actions in pursuit of the aims and objectives" of the programme should be decreased from 60% to 50%. However, Parliament introduced a new clause providing for a ceiling of 95% for "the functioning of European consumer organisations representing consumer interests in the development of standards for products and services at Community level". It also adopted an amendment defining the eligibility criteria for bodies and legal persons seeking to qualify for Community financing;

- Parliament added to the list of actions eligible for Community support, putting particular emphasis on strengthening consumer rights and awareness in the new member states, arguing the Internal Market could not function properly with some consumers having less protection than others. Another point was the need to support older consumers and other vulnerable groups that could have difficulties defending their interests. Parliament also passed an amendment on the impact of consumer legislation on small businesses, which stresses the importance of supporting SMEs and craft industries in their efforts to implement EU legislation. Systematic impact studies should be carried out before adopting new legislation that could affect small businesses. Other actions include: setting up a permanent consumer information and observation system at EU level; establishing an inventory of existing legislation, regulations and practices in the Member States; establishing a general institutional and legal framework for cooperation between Member

States; improving communication with EU citizens on consumer issues; and helping consumers to obtain access to legal aid and advice, mediation and other forms of alternative dispute resolution, including the Commission's SOLVIT system.

Consumer policy: Community action programme 2007-2013

2005/0042B(COD) - 14/11/2006 - Commission communication on Council's position

The Commission considers that the common position adopted by unanimity is in line with the essential objectives and underlying approach of its modified proposal. It notes that the Chair of the European Parliament's Internal Market and Consumer Protection committee confirmed that, should the Council reach a political agreement on the basis of the Presidency compromise text, he would recommend the committee to adopt the common position without amendments. The Commission can therefore support the common position which reflects the agreement reached between the three institutions.

Consumer policy: Community action programme 2007-2013

2005/0042B(COD) - 14/11/2006 - Council position

The Council reached by unanimity a political agreement on the draft Decision establishing a programme of Community action in the field of consumer policy (2007-2013). It was largely based on the Commission's modified proposal issued on 24 May 2006. This modified proposal took into account the substantial shortfall in the programme budget resulting from the inter-institutional agreement on the financial perspectives; as well as the formal views expressed by the European Parliament in first reading. It introduced substantial modifications to the original proposal and split it between a public health programme and a consumer policy programme.

During the discussion on the modified proposal some members of the Council had reservations on specific projects, on the establishment of a European Master programme and scholarship grants; and the European Parliament also had reservations on the European Master programme as well as on decentralised actions and vulnerable consumers.

All the Member State reservations were finally lifted with a view to reach an agreement given the need for an early adoption of the programme. The common position consequently reflects the results of these inter-institutional contacts and is supported by the Commission.

In general, the Council has followed the European Parliament's first reading Opinion that was incorporated to a large extent in the Commission's amended proposal. In particular, the Council agreed to the split of the Commission's original proposal into two separate programmes (one in the field of health (**COD/2005/0042A**) and one in the field of consumer protection).

The Council also accepted the budget for the Programme proposed by the Commission which is set at EUR 138.8 million in 2004 prices (i.e. **EUR 156.8 million in current prices**).

The Council introduced in the common position 18 amendments related to the split of the Commission's original proposal into two separate programmes.

Consumer policy: Community action programme 2007-2013

2005/0042B(COD) - 25/03/2011 - Follow-up document

The purpose of this Staff Working Document is to present the conclusions of the evaluation of i) the ex-post evaluation of the 2004-2007 [Programme of Community Action](#) in the field of consumer protection; ii) the mid-term evaluation of the [2007-2013 Consumer Policy Strategy](#) (hereafter the "Strategy"); and iii) the mid-term evaluation of the **2007-2013 Programme of Community Action** in the field of consumer protection (hereafter the "Programme"). The Programme is the financial framework for funding actions necessary to achieve the objectives set by the Strategy.

Three main sources of data have been used in carrying out these evaluations: i) a literature review, ii) collection of numerical data and iii) consultations with key stakeholders in Parliament, the Commission services, EU and national organisations representing stakeholder interests and Member State authorities.

The evaluation stresses the added value of the Strategy and Programmes and highlights that the actions under the Strategy and Programmes contribute to the [Europe 2020](#) objective of a smart, sustainable and inclusive growth.

The Programmes and the Strategy have been increasingly successful in the integration of consumer policy into EU policies. The report suggests pursuing efforts in this field and addressing emerging challenges such as issues linked to digitalisation, moving towards more sustainable patterns of consumption and taking into account the vulnerability caused by the crisis.

Consumer market monitoring, through the Consumer Market Scoreboard and in-depth studies, has played a key role in supporting consumer policy. On product safety, coordination has increased between market surveillance authorities. The report shows the merit of further strengthening surveillance and enforcement through RAPEX, pursuing the efforts aimed at addressing the international dimension of the safety of products and capitalising on the use of new technologies.

Consumer policy: Community action programme 2007-2013

2005/0042B(COD) - 28/11/2005

The Council took note of a progress report on a proposal aimed at establishing a programme of Community action in the field of health and consumer protection for 2007-2013. The Council decided to come back to this issue at a future meeting.

The adoption of the programme is conditional on the budgetary amount that will be decided for the 2007-2013 period in the framework of the financial perspectives, and on the outcome of discussions in the European Parliament.

Consumer policy: Community action programme 2007-2013

2005/0042B(COD) - 18/12/2006 - Final act

PURPOSE: the establishment of a Community programme in the field of Consumer Policy (2007-2013).

LEGISLATIVE ACT: Decision 1926/2006/EC of the European Parliament and of the Council establishing a programme of Community action in the field of consumer policy (2007-2013).

CONTENT: the purpose of the programme is to two fold:

- firstly, to complement, support and monitor the policies of the Member States; and
- secondly, to contribute to protecting the health, safety and economic and legal interests of consumers, as well as to promote their rights to information, to education and to organise themselves in order to safeguard their interests.

The programme will run from 31 December 2006 to 31 December 2013 with a total financial envelope of EUR 156 800 000.

It consists of eleven actions, which are listed in Annex I to this Regulation. They are as follows:

Action 1: The collection, exchange and analysis of data and information that provide an evidence base for the development of consumer policy and for the integration of consumer interests in other Community policies.

Action 2: The collection, exchange, analysis of data and information and development of assessment tools that provide an evidence base on the safety of consumer goods and services, including consumer exposure to chemicals released from products risks and injuries in relation to specific consumer products and services and technical analysis of alert notifications.

Action 3: Support for scientific advice and risk evaluation, including the tasks of the independent scientific committees established by Commission Decision 2004/210/EC setting up Scientific Committees in the field of consumer safety, public health and the environment.

Action 4: preparation of legislative and other regulatory initiative and the promotion of co-regulatory and self-regulatory initiatives.

Action 5: Financial contributions to European consumer organisations.

Action 6: Financial contributions European consumer organisations representing consumer interests in the development of standards for products and services at Community level.

Action 7: Capacity building for regional, national and European consumer organisations, notably through training and exchange of best practice and expertise for staff members, in particular, for consumer organisations in Member States which acceded in May 2004.

Action 8: Actions to improve the effective application of Community consumer protection legislation.

Action 9: Legal and technical expertise, including studies.

Action 10: Actions on information, advice and redress.

Action 11: Actions on consumer education including targeting young and old consumers and financial contributions to the development of an integrated European Masters Degree on consumer issues.

ENTRY INTO FORCE: 31 December 2006.

Consumer policy: Community action programme 2007-2013

2005/0042B(COD) - 24/05/2006 - Legislative proposal

PURPOSE : to establish a programme of Community action in the field of consumer protection policy (2007-2013) following the agreement of 17 May 2006 on the Financial Framework 2007-2013.

PROPOSED ACT : Decision of the European Parliament and of the Council.

CONTEXT : on 6 April 2005, the Commission proposed a wide-ranging and ambitious health and consumer protection programme 2007-2013 based on the assumption of a **EUR 1 203 million** budget (out of which **EUR 234 million** was for the consumer protection policy).

On 16 March 2006, the European Parliament adopted a resolution calling for indicative financial framework for the implementation of the consumer programme to be set at **EUR 233 460 million**.

The new consumer proposal, in line with the outcome of the Financial Perspectives negotiations, is for **EUR 156.8 million** (current prices), including the consumer contribution towards the running of the executive agency.

In order to take into account the substantial shortfall in the programme budget, as well as the formal views expressed by the European Parliament, the Commission has decided to introduce substantial modifications to its original proposal and to submit two separate proposals for a public health programme and a consumer policy programme. These are tailored to the reduced budget.

CONTENT : this proposal establishes a programme of Community action in the field of consumer protection. References to public health and a joint approach between public health and consumer protection policies have been removed accordingly. However, important elements of the common approach, such as improved communication with citizens, integration of consumer concerns into other policies, and international cooperation have been incorporated in the new proposal. The extension of the mandate of the Public Health Executive Agency to consumer policy is also maintained.

The consumer objectives have been defined more tightly around two new objectives:

1) To ensure a high level of consumer protection, notably through improved evidence, better consultation and better representation of consumers' interests.

2) To ensure the effective application of consumer protection rules notably through enforcement cooperation, information, education and redress.

The number of consumer actions has been reduced from 20 to 11. The main changes can be summarised as follows:

- several actions -e.g. on data collection and assessment, effective application, monitoring of transposition and implementation, information and redress, and education have been merged for the sake of coherence and to reflect the more limited possibilities.

- actions on specific projects in favour of consumer organisations have been deleted, but capacity building to consumer organisations through training has been reinforced.

- there is no longer a reference to representation of consumer interests in international standardisation bodies. This will still be supported through the work programme of European standardisation organisations. Actions for enforcement cooperation with third countries are also foreseen.

- some of the common health and consumer actions provided for in the original proposal, e.g. on information, have been taken up in the consumer programme.

This programme provides for a list of actions from which specific actions will be selected annually in the work programme.

Provisions on Community financial contributions, notably ceilings and beneficiaries, have been reformulated in line with the European Parliament's opinion and the existing consumer programme (Decision 20/2004/EC) and take into account the changes in some of the actions (deletion of specific projects and addition of new actions).

As is the case at present, the measures necessary for the implementation of the following measures shall be adopted in accordance with the advisory procedure: annual work programme and, arrangements for implementing joint actions with Member States, and expenditure for the functioning of European consumer organisations and European standardisation organisations.

Particular attention is given to Member States which have acceded on 1st May 2004, as well as to future Member States, in order to better take into account their shorter tradition of consumer policy. A specific reference to actions benefiting consumers of these countries has been added (concept of exceptional utility), in line with the wishes of the European Parliament.

For further information concerning the financial implications of this measure, please refer to the financial statement.

Consumer policy: Community action programme 2007-2013

2005/0042B(COD) - 12/12/2006 - Text adopted by Parliament, 2nd reading

The European Parliament adopted a resolution drafted by Marianne **THYSSEN** (EPP-ED, BE) approving the Council's common position on the 2007-2013 Community action programme in the field of consumer policy.

Consumer policy: Community action programme 2007-2013

2005/0042B(COD) - 24/05/2006

Package of legislative proposals following the Interinstitutional Agreement on budgetary discipline and sound financial management

The conclusion on 17 May 2006 by the Commission, the Council and the European Parliament of the agreement on the 2007-2013 financial framework (Interinstitutional Agreement on budgetary discipline and sound financial management – please refer to procedure ACI/2004/2099) marks a real success for Europe, providing a stable financial framework for the political priorities of the enlarged Union for the next seven years. It is now up to the institutions and Member

States to ensure that the financial resources available are used and implemented as well as possible. Action at European level must contribute true added value to that taken at national, regional or local level and must have an optimum impact on each European player. The Commission is ready to play a full role in all these areas.

The agreement marks a decisive step forward towards the ultimate objective of providing the Union with operational programmes by the beginning of 2007. Work must now be continued on each legislative act. To this end, the Commission intends to continue to provide momentum and act as a facilitator, as it has been doing since the start of the negotiations.

As part of the negotiations on the 2007-2013 financial framework, in October 2005 the European Parliament, the Council and the Commission adopted a joint declaration in which they undertook to continue work on the legislative proposals currently being discussed and then, once the interinstitutional agreement had been adopted and on the basis of amended proposals by the Commission, to reach agreement on each of these proposals. Thus, in accordance with Article 250(2) of the EC Treaty and in order to facilitate this phase for each legislative act, the Commission has adopted a total of 30 proposals, 26 of which are amended and 4 new.

The **proposals amended as a result of the IIA** are as follows:

Programmes concerning the external policy of the Union and development cooperation:

- Ø **COD/2004/0219 (European Neighbourhood and Partnership Instrument)**
- Ø **COD/2004/0220 (development co-operation and economic co-operation instrument)**

Solidarity and Management of Migration Flows Programme(JHA):

- Ø **COD/2005/0046 (European Refugee Fund)**
- Ø **COD/2005/0047 (External borders fund, 2007-2013)**
- Ø **COD/2005/0049 (European Return Fund)**

Fundamental Rights and Justice Programme (JHA):

- Ø **COD/2005/0037/A(DAPHNE)**
- Ø **COD/2005/0037/B (drugs prevention and information)**

RDT Framework Programme and specific programmes :

- Ø **COD/2005/0043 (RDT Framework Programme)**
- Ø **CNS/2005/0044(Nuclear Research Programme)**
- Ø **CNS/2005/0184 (Joint Research Centre - JRC)**
- Ø **CNS/2005/0185 (Transnational cooperation specific programme)**
- Ø **CNS/2005/0186 (Specific programme Ideas, frontier research)**
- Ø **CNS/2005/0187(Specific programme supporting researchers)**
- Ø **CNS/2005/0188 (RDT Capacities specific programme)**
- Ø **CNS/2005/0189 (specific programme direct actions by the Joint Research Centre JRC)**
- Ø **CNS/2005/0190 (fusion energy, nuclear fission and radiation protection specific programme)**

Employment and social cohesion Programme:COD/2004/0158

- Programmes in the fields of youth and education:
 - Ø **COD/2004/0152 (Youth)**
 - Ø **COD/2004/0153 (Education – lifelong learning)**
- Consumer Protection and Public Health Framework programme:
 - Ø **COD/2005/0042/A (Public health)**
 - Ø **COD/2005/0042/B (Consumers)**
- Programme in the fields of energy, environment and transport :
 - Ø **COD/2004/0218 (LIFE+)**
 - Ø **COD/2004/0154 (TransEuropean networks in the areas of energy and transport)**

Ø **CNS/2004/0221 (Decommissioning of the Bohunice nuclear plant)**

- **GALILEO (radio-navigation by satellite): COD/2004/0156**

In terms of **new proposals**, the Commission has already submitted three in the area of agriculture and rural development policy and fisheries and aquaculture policy:

- Ø **CNS/2006/0081 (fisheries and aquaculture)**
- Ø **CNS/2006/0082 (rural development)**
- Ø **CNS/2006/0083 (common agricultural policy).**

Certain legislative acts do not form part of this package of measures, in particular those on which political agreement has been reached since 17 May. For these measures, the Commission has played a full part in helping to bring about agreement between the arms of the legislative authority. The same applies to the acts for which conclusion of the interinstitutional agreement does not modify the Commission's original proposal. For all the others, which are included in the package presented, the changes proposed by the Commission take account of the content of the interinstitutional agreement adopted, either in a simplified form, where the financial resources allocated to each programme must be adapted, or in a more detailed form where the structure or even the content of the act must be revised. It should also be noted that four of the amended proposals contain amendments already voted on by the European Parliament at first reading and that one proposal has been divided into two amended proposals in response to a request by the Council and the European Parliament, although Parliament has not yet proceeded to a first reading of this proposal.

Based on these amended proposals, the Commission calls on the European Parliament and the Council to continue their discussions of these proposals and conclude them as soon as possible in order to ensure that all the legal instruments are available in time for the effective launch of the programmes in January 2007.
