## Final act

Directive 2008/0033
OJ L 081 20.03.2008, p. 0062 Summary

# End-of-life vehicles: Commission implementing powers

2006/0287(COD) - 11/03/2008 - Final act

PURPOSE: to amend Directive 2000/53/EC on end-of life vehicles by introducing a reference to the new regulatory procedure with scrutiny (comitology).

LEGISLATIVE ACT: Directive of the European Parliament and of the Council.

CONTENT: to recall, Council Decision 1999/468/EC laying down the procedures for the exercise of implementing powers conferred on the Commission has been amended by Council Decision 2006/512/EC (CNS/2002/0298).

The amended Decision introduces a new *regulatory procedure with scrutiny* to be used for measures of general scope which seek to amend non-essential elements of a basic instrument, adopted under co-decision. This may include deleting some of those elements or supplementing the instrument, by the addition of new non-essential elements.

This procedure allows the legislator to oppose the adoption of "quasi-legislative" measures implementing a codecision-based instrument in cases where:

- the draft may exceed the implementing powers provided for in the basic instrument;
- the draft is incompatible with the aim or the content of that instrument; or
- the draft fails to respect the principles of subsidiarity or proportionality.

In a joint statement, the three institutions agreed on a list of 26 basic instruments already in force to be adjusted without delay in accordance with the new regulatory procedure with scrutiny (see ACI/2006/2152). Each case has been assessed on the nature of the implementing powers conferred on the Commission and the specificity of each sector.

The purpose of this act, therefore, is to amend EU legislation on end-of-life vehicles, by introducing the new *regulatory procedure with scrutiny*.

ENTRY INTO FORCE: 21 March 2008.

# End-of-life vehicles: Commission implementing powers

2006/0287(COD) - 11/07/2007 - Text adopted by Parliament, 1st reading/single reading

The European Parliament adopted the report drafted by Karl-Heinz **FLORENZ** (EPP-ED, DE) on Directive 2000/53/EC on end-of-life vehicles, as regards the implementing powers conferred to the Commission. The Parliament decided not to accept the amendments tabled by its committee responsible and instead approved a package of new amendments adopted by the EPP-ED, PES, ADLE, Greens/ALE, GUE/NGL and UEN political groups which aim to amend the Commission proposal amending Directive 2000/53/EC on end-of-life vehicles, as regards the new regulatory procedure with scrutiny.

The amendments are of a technical nature aiming to clarify the proposal and to state that the amendment to this proposal is consistent with the joint declaration from the Parliament, Commission and the Council on Decision 2006/512/EC on the introduction of the regulatory procedure with scrutiny for a series of basic instruments.

# End-of-life vehicles: Commission implementing powers

2006/0287(COD) - 22/12/2006 - Legislative proposal

PURPOSE: to amend Directive 2000/53/CE on end-of life vehicles by introducing a reference to the new regulatory procedure with scrutiny(comitology).

PROPOSED ACT: Directive of the European Parliament and of the Council.

CONTENT: Council Decision 1999/468/EC laying down the procedures for the exercise of implementing powers conferred on the Commission has been amended by Council Decision 2006/512/EC (CNS/2002/0298).

The amended Decision introduces a new *regulatory procedure with scrutiny* to be used for measures of general scope which seek to amend non-essential elements of a basic instrument, adopted under co-decision, including by deleting some of those elements or by supplementing the instrument by the addition of new non-essential elements.

This procedure allows the legislator to oppose the adoption of "quasi-legislative" measures implementing a codecision-based instrument when it considers that the draft exceeds the implementing powers provided for in the basic instrument, or that the draft is incompatible with the aim or the content of that instrument or fails to respect the principles of subsidiarity or proportionality.

In a joint statement, the three institutions agreed on a list of 26 basic instruments already in force to be adjusted without delay in accordance with the new regulatory procedure with scrutiny (see ACI/2006/2152). Each case has been assessed on its own merits, notably in view of the nature of the implementing powers conferred on the Commission and the specificity of each sector.

Lastly, in accordance with the abovementioned statement, the Commission is proposing to repeal any provisions of these instruments that provide for a time-limit on the delegation of implementing powers to the Commission.
