## Catch and activity statistics by Member States fishing in the north-west Atlantic. Recast

2007/0264(COD) - 29/11/2007 - Legislative proposal

PURPOSE : recast of Council Regulation (EEC) No 2018/93 on the submission of catch and activity statistics by Member States fishing in the Northwest Atlantic

PROPOSED ACT : Regulation of the European Parliament and of the Council.

CONTENT : the codification of Council Regulation (EEC) No 2018/93 has been initiated by the Commission. The new Regulation was to have superseded the various acts incorporated in it.

In the meantime Council Decision 1999/468/EC laying down the procedures for the exercise of implementing powers conferred on the Commission has been amended by Decision 2006/512/EC, which introduced a regulatory procedure with scrutiny for measures of general scope designed to amend nonessential elements of a basic instrument adopted in accordance with the procedure referred to in Article 251 of the Treaty (co-decision procedure), including by deleting some of those elements or by supplementing the instrument by the addition of new non-essential elements.

In accordance with the joint statement of the European Parliament, the Council and the Commission<sup>5</sup> on Decision 2006/512/EC, for this new procedure to be applicable to instruments adopted in accordance with the co-decision procedure which are already in force, those instruments must be adjusted in accordance with the applicable procedures.

The Commission feels that it is therefore appropriate to transform the codification of Regulation (EEC) No 2018/93 into a recast in order to incorporate the amendments necessary for the adjustment to the regulatory procedure with scrutiny.

On comitology, the proposal states that power should be conferred on the Commission to adapt the lists of species and statistical fishing regions, descriptions of those regions, and measures, codes and definitions applied to fishing activity, fishing gears, vessel sizes and methods of fishing. Since those measures are of general scope and are designed to amend non-essential elements of this Regulation, they should be adopted in accordance with the regulatory procedure with scrutiny.

## Catch and activity statistics by Member States fishing in the north-west Atlantic. Recast

2007/0264(COD) - 17/06/2008 - Text adopted by Parliament, 1st reading/single reading

The European Parliament adopted, by 648 votes to 8 with 16 abstentions, a legislative resolution approving, under 1<sup>st</sup> reading of the codecision procedure, the proposal for a regulation of the European Parliament and of the Council on the submission of catch and activity statistics by Member States fishing in the Northwest Atlantic (recast).

The report had been tabled for consideration in plenary by József **SZAJER** (EPP-ED, HU) on behalf of the Committee on Legal Affairs.

The proposal is approved as adapted to the recommendations of the Consultative Working Party of the Legal Services of the European Parliament, the Council and the Commission.

## **Catch and activity statistics by Member States fishing in the north-west Atlantic. Recast**

2007/0264(COD) - 11/03/2009 - Final act

**PURPOSE:** recast of Council Regulation (EEC) No 2018/93 on the submission of catch and activity statistics by Member States fishing in the Northwest Atlantic

**LEGISLATIVE ACT:** Regulation (EC) No 217/2009 of the European Parliament and of the Council on the submission of catch and activity statistics by Member States fishing in the north-west Atlantic (recast).

**CONTENT:** the codification of Council Regulation (EEC) No 2018/93 was initiated by the Commission. Before codification was completed, Council Decision 1999/468/EC laying down the procedures for the exercise of implementing powers conferred on the Commission was amended by Decision 2006/512/EC, which introduced a regulatory procedure with scrutiny. In accordance with the joint statement of the European Parliament, the Council and the Commission on Decision 2006/512/EC, for this new procedure to be applicable to instruments adopted in accordance with the co-decision procedure which are already in force, those instruments must be adjusted in accordance with the applicable procedures.

Accordingly, this Regulation recasts in order to incorporate the amendments necessary for the adjustment to the regulatory procedure with scrutiny.

On comitology, the Regulation states that power should be conferred on the Commission to adapt the lists of species and statistical fishing regions, descriptions of those regions, and measures, codes and definitions applied to fishing activity, fishing gears, vessel sizes and methods of fishing. Since those measures are of general scope and are designed to amend non-essential elements of this Regulation, they should be adopted in accordance with the regulatory procedure with scrutiny.

**ENTRY INTO FORCE :** 20/04/2009.
