Car industry: radio interference (electromagnetic compatibility) of vehicles

2009/0154(COD) - 19/10/2009 - Legislative proposal

PURPOSE: to codify Council Directive 72/245/EEC relating to the radio interference (electromagnetic compatibility) of vehicles.

PROPOSED ACT: Directive of the European Parliament and of the Council.

CONTENT: the purpose of this proposal is to undertake a codification of Council Directive 72/245/EEC of 20 June 1972 relating to the radio interference (electromagnetic compatibility) of vehicles.

The new Directive will supersede the various acts incorporated in it. This proposal fully preserves the content of the acts being codified and hence does no more than bring them together with only such formal amendments as are required by the codification exercise itself.
