Regulation 2019/0492 OJ L 085I 27.03.2019, p. 0005	Summary
---	-------------------------

Ship inspection and survey organisations: withdrawal of the United Kingdom from the Union

2018/0298(COD) - 27/03/2019 - Final act

PURPOSE: to ensure legal certainty for ship operators and the continuity of maritime transport activities in the event of Brexit without a withdrawal agreement.

LEGISLATIVE ACT: Regulation (EU) 2019/492 of the European Parliament and of the Council amending Regulation (EC) No 391/2009 with regard to the withdrawal of the United Kingdom from the Union.

CONTENT: this Regulation amends [Regulation \(EC\) No 391/2009](#) in order to remove the legal uncertainty created by the withdrawal of the United Kingdom with regard to the organisations authorised to carry out ship inspection and certification and to preserve the continuity of the activities of the shipowners concerned and the competitiveness of the flags of the EU-27 Member States which work with the organisations concerned.

After its withdrawal from the Union, the United Kingdom shall no longer be able to participate in these assessments.

In order to continue to benefit from Union recognition, recognised organisations must continue to fulfil the requirements and minimum criteria set. This is verified through the continuous assessment carried out by the Commission, together with the relevant Member State. Therefore, regular assessments play an important role for continued recognition of organisations.

The recognised organisations which were initially recognised by the United Kingdom currently enjoy Union recognition and have been entrusted by other Member States with duties in relation to the inspection, survey and certification of ships.

All recognised organisations shall be assessed by the Commission, together with the Member State or Member States which authorised them in accordance with [Directive 2009/15/EC](#), on a regular basis and at least every two years, to verify that they meet the obligations under this Regulation.

In order to ensure the coordination of national and Union activities with regard to the monitoring of recognised organisations, the Commission shall consult with experts and identify and exchange good practices to avoid duplication of work and to make best use of existing capacities and resources.

The Commission shall report to the European Parliament and to the Council on the effects of this Regulation not later than three years following its date of application.

ENTRY INTO FORCE: 28.3.2019. The Regulation shall apply on the day following the date on which Union law ceases to apply in the United Kingdom.

Ship inspection and survey organisations: withdrawal of the United Kingdom from the Union

2018/0298(COD) - 01/08/2018 - Legislative proposal

PURPOSE: to remove the legal uncertainty resulting from the withdrawal of the United Kingdom as regards the recognised organisations authorised to carry out ship inspection and survey.

PROPOSED ACT: Regulation of the European Parliament and of the Council.

ROLE OF THE EUROPEAN PARLIAMENT: the European Parliament decides in accordance with the ordinary legislative procedure and on an equal footing with the Council.

BACKGROUND: the United Kingdom submitted notification of its intention to withdraw from the Union. This means that, unless a ratified withdrawal agreement establishes another date, all Union primary and secondary law will cease to apply to the United Kingdom from 30 March 2019, ('the withdrawal date'). The United Kingdom will then become a third country.

Subject to any transitional arrangements that may be contained in a withdrawal agreement, EU legislation on maritime transport will no longer apply to the United Kingdom. One of the areas of Union law that would be affected is the recognition at the Union level of organisations providing services for the inspection and survey of ships flying the flag of Member States ('recognised organisations').

In particular, [Regulation \(EC\) No 391/2009](#) requires ship inspection and survey organisations recognised at EU level by the Commission ('recognised organisations') to be assessed at least every two years by the Commission together with the Member State that submitted the initial request for recognition of the organisation. Organisations which were initially recognised by the relevant Member State under the previous legislation and which presently enjoy EU recognition should be assessed in the same way. As a result, the Member State which initially recognised these organisations should be considered the 'sponsor' Member State that participates in the Commission's assessment.

In order to continue enjoying EU recognition, recognised organisations must continue to meet the requirements and minimum criteria set out in Annex I of Regulation (EC) No 391/2009. This is verified through the continuous re-assessment conducted by the Commission and the 'sponsor' Member State.

As of its withdrawal, **the United Kingdom will no longer be in a position to participate in the assessments carried out pursuant to the Regulation** for those organisations for which the United Kingdom acts as the 'sponsor' Member State. Consequently, the continued validity of the recognition for these organisations at EU level could be called into question and could not be clarified with sufficient legal certainty under the existing provisions of the Regulation.

Organisations' potential loss of EU recognition due to the United Kingdom's withdrawal could have adverse consequences for the competitiveness and appeal of the EU-27 Member States' flags that have authorised these recognised organisations to act on their behalf for the purposes of carrying out statutory ship inspections, surveys and certification.

The recognised organisations affected currently have authorisation agreements with the majority of the EU-27 Member States and after the United Kingdom's withdrawal they would not be able to make use of these recognised organisations for their flagged fleet.

The proposed Regulation should only rectify the potential adverse consequences caused/brought about by the United Kingdom's withdrawal from the Union on the flags of the 27 Member States.

CONTENT: the proposal meets the objective of safeguarding business continuity and the competitiveness of the flags of the EU-27 Member States working with the affected organisations will be attained. It aims to **resolve the legal uncertainty created by the United Kingdom's withdrawal** in relation to the continued validity of the recognition for organisations for which the United Kingdom acts as the 'sponsor' Member State participating in the Commission's assessment.

The proposed legislative measure would amend Regulation (EC) No 391/2009 by replacing the current requirement, under which only the 'sponsor' Member State shall participate in the regular assessment process conducted by the Commission, by introducing **the participation of any Member State which has authorised one of the recognised organisations**. It would allow the assessment to be carried out by the Commission together with any Member State which has authorised the relevant recognised organisation to act on its behalf and not only the 'sponsor' Member State.

The Commission should report on its effects after an adequate/sufficient period of application, in particular with a view to identifying any consequences which could go beyond the scope of this Regulation.

Ship inspection and survey organisations: withdrawal of the United Kingdom from the Union

2018/0298(COD) - 10/01/2019 - Committee report tabled for plenary, 1st reading/single reading

The Committee on Transport and Tourism adopted the report by Isabella DE MONTE (S&D, IT) on the proposal for a regulation of the European Parliament and of the Council amending Regulation (EC) No 391/2009 with regard to the withdrawal of the United Kingdom from the Union.

The Commission proposal aims to resolve the legal uncertainty created in the area of recognised organisations by the United Kingdom's withdrawal, and to safeguard business continuity for the ship owners affected as well as the competitiveness of the flags of the EU-27 Member States working with the organisations concerned.

The committee recommended that the position of the European Parliament adopted at first reading in the framework of the ordinary legislative procedure amend the Commission proposal as follows.

The proposal provides that all recognised organisations shall be assessed by the Commission, together with the Member States which authorised them in accordance with Directive 2009/15/EC, on a regular basis and at least every two years to verify that they meet the obligations under the Regulation and fulfil the minimum criteria set out in Annex I. Members proposed that the Commission facilitate the participation of Member States in the assessment by establishing an oversight programme which may be used by Member States in fulfilling their obligations under IMO Resolution A.1070 (28) and Article 9 of Directive 2009/15/EC.

Ship inspection and survey organisations: withdrawal of the United Kingdom from the Union

2018/0298(COD) - 13/03/2019 - Text adopted by Parliament, 1st reading/single reading

The European Parliament adopted by 590 votes to 9, with 21 abstentions, a legislative resolution on the proposal for a regulation of the European Parliament and of the Council amending Regulation (EC) No 391/2009 as regards the withdrawal of the United Kingdom from the Union.

The European Parliament's position was adopted at first reading in accordance with the ordinary legislative procedure.

Regulation (EC) No 391/2009 of the European Parliament and of the Council and Directive 2009/15/EC of the European Parliament and of the Council together constitute the regulatory framework for the activities of recognised ship inspection, survey and certification organisations.

The proposal aims to resolve the legal uncertainty created in the area of recognised organisations by the United Kingdom's withdrawal, and to safeguard business continuity for the ship owners affected as well as the competitiveness of the flags of the EU-27 Member States working with the organisations concerned.

Under the proposal, all recognised organisations shall be assessed by the Commission, together with the Member State or Member States which authorised them in accordance with Directive 2009/15/EC, on a regular basis and at least every two years, to verify that they meet the obligations under this Regulation and fulfil the minimum criteria set out in Annex I to this Regulation.

In order to ensure the coordination of national and Union activities with regard to the monitoring of recognised organisations, the Commission should consult with experts and identify and exchange good practices to avoid duplication of work and to make best use of existing capacities and resources.
