# EU/Switzerland agreement: cross-border cooperation, particularly in combating terrorism and cross-border crime; forensic service providers carrying out laboratory activities

2019/0013(NLE) - 31/01/2019

PURPOSE: to conclude an international agreement between the European Union and Switzerland for the application of some of the provisions of Council Decision 2008/615/JHA on the stepping up of cross-border cooperation, in particular in combating terrorism and cross-border crime.

PROPOSED ACT: Council decision.

ROLE OF THE EUROPEAN PARLIAMENT: Council may adopt the act only if Parliament has given its consent to the act.

BACKGROUND: Council Decision 2008/615/JHA on the stepping up of cross-border cooperation, particularly in combating terrorism and cross-border crime ('the Prüm Decision') and Council Decision 2008/616/JHA on the implementation of the Prüm Decision are intended to improve the exchange of information between the authorities responsible for the prevention and investigation of criminal offences and to enhance cross-border police and judicial cooperation between the Member States of the Union.

The Prüm Decision contains, inter alia, provisions whereby Member States grant one another, on a mutual basis, access rights to their automated DNA analysis files, automated dactyloscopic identification systems and vehicle registration data.

The Council adopted Council Framework Decision 2009/905/JHA on accreditation of forensic service providers carrying out laboratory activities lays down the requirements for the exchange of DNA and fingerprint data, in order to ensure that the results of laboratory activities carried out by accredited forensic service providers in one Member State are recognised by the authorities responsible for the prevention, detection and investigation of criminal offences as being equally reliable as the results of laboratory activities carried out by forensic service providers accredited to EN ISO/IEC 17025 within any other Member State.

On 10 June 2016, the Council authorised the Commission to open negotiations with the Swiss Confederation and the Principality of Liechtenstein on the application of certain provisions of Council Decision 2008/615/JHA, of Council Decision 2008/616/JHA, and the Annex thereto, and of Council Framework Decision 2009/905/JHA on accreditation of forensic service providers carrying out laboratory activities. The negotiations have been successfully finalised with the both countries by the initialling of the Agreement on 24 May 2018.

The Commission considers that the objectives set by the Council in its negotiating directives were attained and that the draft Agreement is acceptable to the Union.

CONTENT: the Commission proposes that the Council authorise, on behalf of the Union, the Agreement between the Swiss Confederation and the Principality of Liechtenstein on the application of certain provisions of:

- Council Decision 2008/615/JHA (Prüm Decision) on the stepping up of cross-border cooperation, particularly in combating terrorism and cross-border crime, of Council Decision 2008/616/JHA on the implementation of Prüm Decision;
- Council Framework Decision 2009/905/JHA on accreditation of forensic service providers carrying out laboratory activities.

This international agreement between the EU and the Swiss Confederation aims to improve and simplify the automated exchange of information and intelligence between law enforcement authorities of the Member States and the associated countries, in order to stimulate international police cooperation.

The possibility for all the Member States to have access to the national databases of the Swiss Confederation, regarding the DNA, dactyloscopic and vehicle registration data, and the other way around, is undoubtedly of central importance in order to foster and encourage the cross border police cooperation.

The Agreement also sets the provisions for uniform application, dispute settlement, amendments, notifications and declarations. The contracting Parties agree to carry out common review of the agreement no later than five years after its entry into force. The Agreement is concluded for an indefinite period whilst one of the Contracting Parties can terminate the Agreement at any time.

BUDGETARY IMPLICATIONS: the Agreement states that the Swiss Confederation should bear the costs incurred by its own authorities in connection with the application of this Agreement. Therefore, there are no budgetary implications for the Union budget.

2019/0013(NLE) - 05/12/2019 - Committee report tabled for plenary, 1st reading/single reading

The Committee on Civil Liberties, Justice and Home Affairs adopted the report by Roberta METSOLA (EPP, MT) on the draft Council decision on the conclusion of the Agreement between the European Union and Switzerland on the application of certain provisions of Council Decision 2008/615/JHA on the stepping up of cross-border cooperation, particularly in combating terrorism and cross-border crime, of Council Decision 2008/616/JHA on the implementation of Decision 2008/615/JHA on the stepping up of cross-border cooperation, particularly in combating terrorism and cross-border crime, and the Annex thereto, and of Council Framework Decision 2009/905/JHA on accreditation of forensic service providers carrying out laboratory activities.

The committee recommended that the European Parliament give its consent to the conclusion of the agreement.

This international agreement between the EU and Switzerland aims to improve and simplify the automated exchange of information and intelligence between law enforcement authorities of the Member States and the associated countries, in order to stimulate international police cooperation. It lists the provisions of the Prüm Decision, the Prüm Implementing Decision and the Forensic Decision that shall become applicable to Switzerland after entry into force of the agreement.

# EU/Switzerland agreement: cross-border cooperation, particularly in combating terrorism and cross-border crime; forensic service providers carrying out laboratory activities

2019/0013(NLE) - 20/06/2019 - Document attached to the procedure

CORRIGENDUM to the Agreement between the European Union and the Swiss Confederation on the application of some of the provisions of Council Decision 2008/615/JHA on the stepping up of cross-border cooperation, in particular to combat terrorism and cross-border crime, Council Decision 2008/616/JHA and Council Framework Decision 2009/905/JHA on the accreditation of forensic service providers carrying out laboratory activities.

The corrigendum concerns the Declaration of the Contracting Parties on the occasion of the signature of the Agreement. It concerns only the **French** version

The European Union and Switzerland, signatories to the Agreement, declare that the implementation of the exchange of data relating to DNA profiles, fingerprints and vehicle registrations requires Switzerland to establish bilateral connections for each of these categories of data with each of the Member States.

Switzerland may benefit from an informal partnership with Member States that have already implemented such data exchanges, with a view to sharing experiences and thus accessing practical and technical assistance. The terms of such partnerships shall be the subject of a direct agreement between the Member States concerned

It is specified that Swiss experts may at any time contact the Presidency of the Council, the European Commission or recognised experts in the fields for which they wish to obtain information, clarification or any other type of assistance. Similarly, when it comes to the preparation of proposals or communications for which it is in contact with the representatives of the Member States, the Commission may in the same way approach the representatives of the Swiss Confederation.

Swiss experts may be invited to participate in meetings in which experts from Member States discuss the various technical aspects directly relevant to the implementation and development of the content of the above-mentioned Council decisions.

# EU/Switzerland agreement: cross-border cooperation, particularly in combating terrorism and cross-border crime; forensic service providers carrying out laboratory activities

2019/0013(NLE) - 28/05/2019 - Document attached to the procedure

Agreement between the European Union and the Swiss Confederation on the application of certain provisions of Council Decision 2008/615/JHA on the stepping up of cross-border cooperation, particularly in combating terrorism and cross-border crime, of Council Decision 2008/616/JHA on the implementation of Decision 2008/615/JHA on the stepping up of cross-border cooperation, particularly in combating terrorism and cross-border crime, and the annex thereto, and of Council Framework Decision 2009/905/JHA on accreditation of forensic service providers carrying out laboratory activities

The Agreement aims to improve and simplify the automated exchange of information and intelligence between law enforcement authorities of the Member States of the European Union and countries associated with the development of the Schengen acquis in order to stimulate international police cooperation.

The Agreement allows all Member States to have access to Switzerland's national databases on DNA, fingerprint and vehicle registration data, and vice versa.

Procedures for promoting fast, efficient and inexpensive means of data exchange, and that, for the joint use of data, those procedures should be subject to accountability and should incorporate appropriate guarantees as to the accuracy and security of the data during transmission and storage as well as procedures for recording data exchange and restrictions on the use of information exchanged.

In the case of data from national DNA analysis files and automated dactyloscopic identification systems, a hit/no hit system should enable the searching State, in a second step, to request specific related personal data from the State administering the file and, where necessary, to request further information through mutual assistance procedures.

The processing of personal data, pursuant to this Agreement, by the authorities of the Swiss Confederation for the purposes of the prevention, detection or investigation of terrorism and cross-border crime should be subject to a standard of protection of personal data under the national law of the Swiss Confederation which complies with Directive (EU) 2016/680.

The contracting Parties agree to carry out common review of the agreement no later than five years after its entry into force (Article 6). The Agreement is concluded for an indefinite period whilst one of the Contracting Parties can terminate the Agreement at any time (Article 10).
