Amending budget 3/2023: update of revenue (own resources) and other technical adjustments including the set-up and financing for 2023 of the new defence industrial reinforcement instrument and of the European chips act

2023/0240(BUD) - 19/09/2023 - Council position on draft budget

The Council adopted its position on the **draft amending budget (DAB) No 3** to the general budget for 2023.

The purpose of DAB No. 3 to the general budget for 2023 submitted by the Commission is to update the revenue side of the budget to take account of the most recent developments as regards:

- the updated own resources forecasts for the 2023 budget agreed by the Advisory Committee on Own Resources (ACOR) on 25 May 2023;

- the update of other revenues such as the United Kingdom contribution, fines and other.

Additionally, DAB No 3/2023 includes the following specific elements related to expenditure:

- adjustments with respect to the set-up and financing for 2023 of the new Defence Industrial Reinforcement Instrument established by the Act in Support of Ammunition Production (ASAP);

- adjustments with respect to the financing of the European Chips Act for 2023 following the political agreement reached between the European Parliament and the Council on 18 April 2023;

- cancellation of appropriations from the reserve line for the Sustainable Fisheries Partnership Agreements (SFPA), due to delays in the negotiations with three third countries (namely Morocco, Liberia and Solomon Islands);

- reinforcement of the budget of the European Data Protection Supervisor (EDPS) to cover additional costs in relation to the rent to be paid to the European Parliament.

Overall, the net impact of DAB No 3/2023 on expenditure amounts to **an increase of EUR 54.8 million in commitment appropriations and a decrease of EUR 190.9 million in payment appropriations**.

The Council adopted its position on DAB No 3 to the general budget for 2023 as set out in the technical annex to this explanatory memorandum.

Amending budget 3/2023: update of revenue (own resources) and other technical adjustments including the set-up and financing for 2023 of the new defence industrial reinforcement instrument and of the European chips act

2023/0240(BUD) - 18/10/2023 - Budgetary text adopted by Parliament

The European Parliament adopted by 544 votes to 24, with 41 abstentions, a resolution approving the Council position on Draft amending budget No 3 /2023 of the European Union for the financial year 2023.

Draft amending budget No 3/2023 includes updates of revenue (own resources) and other technical adjustments including the set-up and financing for 2023 of the new Defence Industrial Reinforcement Instrument and of the European Chips Act.

More specifically, it entails a revision of the own resources forecasts in relation to customs duties, which are 9.9 % higher than in the 2023 budget, the uncapped VAT base, which is 8.6 % higher than the May 2022 forecast, non-recycled plastic packaging waste base, which is 11.6 % higher than the May 2022 forecast, and the total EU GNI base, which is up 3.6 % compared to the May 2022 forecast.

It also provides an update of the United Kingdom contribution in 2023, which stands at just over EUR 9 billion, and gives cashed amounts of fines and penalty payments, which stand at just over EUR 690 million. EUR 504 million of those fines and penalty payments are mainly for excess emissions premiums.

The overall impact of Draft amending budget No 3/2023 on expenditure amounts to an **increase of EUR 54.8 million** in commitment appropriations and a **decrease of EUR 190.9 million** in payment appropriations.

Parliament welcomes Draft amending budget No 3/2023 as submitted by the Commission. It took note that the increase in the amount of own resources other than GNI entails a decrease in the GNI contribution of EUR 4.4 billion compared to Draft amending budget No 2/2023. It reiterated its view that Member States should take advantage of the reduction in their GNI-based contributions to increase funding for the Union budget, actions and programmes, inter alia to respond to the consequences of Russia’s war of aggression against Ukraine, address climate change and support Europeans and SMEs in coping with high inflation.

The Council is urged to approve the recent Commission proposals on own resources in order to increase the own resources available to the Union budget.

Amending budget 3/2023: update of revenue (own resources) and other technical adjustments including the set-up and financing for 2023 of the new defence industrial reinforcement instrument and of the European chips act

2023/0240(BUD) - 03/07/2023

PURPOSE: presentation of draft amending budget No 3 to the general budget 2023 which aims to update revenue (own resources) and other technical adjustments including the set-up and financing for 2023 of the new Defence Industrial Reinforcement Instrument and of the European Chips Act.

CONTENT: the main purpose of Draft Amending Budget (DAB) No 3 for the year 2023 is to update the revenue side of the budget to take account of the latest developments as regards:

- the updated own resources forecasts for the 2023 budget agreed by the Advisory Committee on Own Resources (ACOR) on 25 May 2023. This update is typically presented shortly after the ACOR forecast meeting, in line with the Member States’ expectations that the ACOR updates are budgeted as soon as possible;

- to update other revenues such as the United Kingdom contribution, fines and other.

Additionally, DAB 3/2023 includes the following specific elements related to expenditure:

- adjustments with respect to the set-up and financing for 2023 of the new Defence Industrial Reinforcement Instrument established by the Act in Support of Ammunition Production (ASAP). The adjustment includes creating two new budget lines initially with a token entry (‘p.m.’): (i) support expenditure for the Defence Industrial Reinforcement Instrument; (ii) Defence Industrial Reinforcement Instrument;

- adjustments with respect to the financing of the European Chips Act for 2023 (cancelling of EUR 80 million in payment appropriations) following the political agreement reached between the European Parliament and the Council on 18 April 2023;

- cancellation of appropriations (EUR 45.3 million in commitment appropriations and EUR 24.8 million in payment appropriations) from the reserve line for the Sustainable Fisheries Partnership Agreements (SFPA), due to delays in the negotiations with three third countries (namely Morocco, Liberia and Solomon Islands);

- reinforcement of the budget of the European Data Protection Supervisor (EDPS) by EUR 81 857 to cover the rent, charges and other expenditure for the EDPS building facilities, which are hosted by the European Parliament.

Overall, the net impact of DAB 3/2023 on expenditure amounts to an increase of **EUR 54.8 million in commitment appropriations** and a **decrease of EUR 190.9 million in payment appropriations**.
