2022 discharge: General budget of the EU - European Parliament

2023/2130(DEC) - 10/10/2024 - Final act

PURPOSE: to grant discharge to the European Parliament for the financial year 2022.

NON-LEGISLATIVE ACT: Decision (EU) 2024/2222 of the European Parliament on discharge in respect of the implementation of the general budget of the European Union for the financial year 2022, Section I – European Parliament.

CONTENT: with the present decision, the European Parliament grants discharge to its President for the implementation of its budget for the financial year 2022.

This decision is in line with the European Parliament's resolution adopted on 11 April 2024 and comprises a series of observations that form an integral part of the discharge decision (please refer to the summary dated 11 April 2024).

2022 was a year of transition for the Union institutions, including Parliament, measures introduced as a result of the COVID-19 pandemic were discontinued by June 2022. Members welcomed the efforts of all DGs and the Secretary-General to put the necessary tools in place to resume parliamentary work so that it functions in the same way as it did before the COVID-19 pandemic. The also noted that the COVID-19 pandemic is estimated to have generated a moderate surplus of EUR 16 417 325 and that is necessary to reinforce other budget lines by a total of EUR 7 549 000.

Moreover, Parliament's administration put considerable effort into the implementation of the budget with a view to meeting urgent needs arising from the crisis situation due to the Russian war of aggression against Ukraine and the exceptionally high level of inflation.

Amongst Parliaments main observations, the latter noted that Parliament's final appropriations for 2022 totalled **EUR 2 161 million**, or 19.55 % of Heading 7 of the Multiannual Financial Framework set aside for the 2022 administrative expenditure of the Union institutions as a whole, representing a 4.76 % increase compared to the 2021 budget.

The total revenue entered in the accounts as of 31 December 2022 was EUR 250 473 772 (compared to EUR 215 332 108 in 2021). Assigned revenue made available in 2022 amounted to EUR 61 267 620 (compared to EUR 37 150 962 in 2021).

Horizontal issues

Harassment

Members welcomed Parliament's zero tolerance policy on harassment and the awareness-raising campaigns carried out. In 2022, 56 MEPs participated in the training session. The report noted that members of staff and APAs had participated in anti-harassment training courses.

Whistleblowers

It is recalled that staff members of the Union institutions have an obligation to report any information pointing to corruption, fraud and other serious irregularities that they discover in the line of duty. Parliament recorded one case of whistleblowing in 2022.

Members welcomed the ongoing work in 2022 to update the Internal Rules Implementing Article 22(c) of the Staff Regulations of 4 December 2015 with more comprehensive and detailed internal rules. They welcome that a Bureau decision regarding the internal rules on whistleblowing was adopted on 20 November 2023 and applies from 1 December 2023, including provisions for the protection of whistleblowers, transmission of evidence to OLAF and, if appropriate, EPPO as well as deadlines for the handling of complaints.

Voluntary Pension Fund (VPF)

The actuarial deficit of the Voluntary Pension Fund (VPF) on 31 December 2021 amounted to EUR 379 million (compared to EUR 371.4 million on 31 December 2020). Members welcomes the amendments made by Parliament's Bureau to Article 76 of the IMMS in relation to the Additional (Voluntary)

Pension Scheme, which entered into force on 1 July 2023, aiming to reduce future pension obligations from EUR 362.7 million to an estimated EUR 139 million, and the actuarial deficit of the fund from EUR 310 million to an estimated EUR 86 million. They welcomed the latest decisions taken by the Bureau.

The report asked the administration and the Bureau to explore every legal option that would guarantee that no taxpayer money is used for any future bail-out of the VPF's investment portfolio.

European political parties and European political foundations

In 2022, the Authority gave European political parties and European political foundations the right to be heard as well as the opportunity for corrective measures in 9 cases. The relevant corrective measures were immediately implemented by the European political parties and foundations concerned in all these cases.

The report noted with concern that the Authority reports that it is facing constrained human resources. It highlights that this issue is expected to become more pressing due to the evolving challenges in the run-up to the 2024 European elections, including, in particular, the need to protect democratic integrity against novel forms of foreign interference.

In its resolution adopted by 499 votes to 69, with 47 abstentions, Parliament made the following observations:

Parliament's administration has put considerable effort into the implementation of the budget with a view to meeting urgent needs arising from the crisis situation due to the Russian war of aggression against Ukraine and the exceptionally high level of inflation.

Presidency, Communication

Parliament welcomed the swift action taken by Parliament following the cases of alleged corruption involving Members and officials in December 2022 and the 14-point action plan proposed by the President. It welcomed the increased use of the transparency register as an information and reference tool for interest representation activities at EU level. It called for rigorous standards of transparency and access to the EU institutions for all entities in the transparency register. It reiterated its concern at the large-scale disinformation campaigns and foreign interference targeting the EU, particularly on the part of Russia. There is a need for an enhanced security culture within Parliament.

DG COMM is invited to continue to develop and implement effective strategies to combat disinformation and manipulation of information, particularly in an electoral context.

Personnel

Members recalled that, on 13 January 2020, the Bureau approved new and more ambitious targets for gender balance at the senior and middle management levels of Parliament's administration to be achieved by 2024, meaning that women should hold 50% of head of units posts, 50% of director posts and 40% of director-general posts. Members praised the work carried out by DG PERS with accredited parliamentary assistants (APAs), who have seen the recognition of their work gradually increase over the years. They welcomed the progress made in revising the rules governing the employment of accredited parliamentary assistants. The minimum budgetary allocation for parliamentary assistance should be set at a minimum of 35%.

Infrastructure and logistics

Parliament acknowledged that Parliament's 'Building Strategy beyond 2019' provides a coherent framework for decisions and contributes to consolidating Parliament's real estate portfolio while adapting facilities to the evolution of meeting patterns, going local and closer to citizens through the gradual roll-out of Europa Experience Centres, enhancing security for Parliament's buildings, and achieving the interconnection of its central buildings. The majority of the policies and actions referred to in the current Building Strategy are either completed or well under way.

Members also welcomed Parliament's efforts to encourage staff to use sustainable means of transport for commuting by providing an increasing number of conventional and electric bicycles free of charge and by reimbursing part of the cost of public transport tickets in exchange for restricted access to car parks.

Interpretation, translation

Parliament welcomed DG TRAD's commitment to providing high-quality language services on time. It noted that DG TRAD ensures that Parliament's procedural content is available in the 24 official and working languages of the Union. It praised the outstanding work done by the interpreters in 2022, which ensured that, as far as possible, interpretation of the debates could be provided in all the official and working languages of the Union.

Innovation and Technological Support

Parliament welcomed the fact that DG ITEC partners with client Directorates-General to deliver a user-centred, secure, hybrid and data driven working environment for Members and staff. It noted with satisfaction its promotion of the sustainable and responsible deployment of innovative technologies such as artificial intelligence and data analytics to enhance the decision-making capabilities of Parliament's services. Parliament's cyber-defence activities were strongly marked by a constantly growing cyber threat. Members welcomed the creation of the Directorate for Cybersecurity in 2022 and urged Parliament to maintain its efforts and increase its investment in cybersecurity. They welcomed that DG ITEC offered the possibility to check IT equipment for evidence of spyware such as PEGASUS.

Harassment

Members welcomed Parliament's zero tolerance policy on harassment and the awareness-raising campaigns carried out. In 2022, 56 Members participated in the training session. The resolution noted that members of staff and APAs had participated in anti-harassment training courses.

Lastly, Parliament commented on whistleblowers, the voluntary pension fund, and European political parties and foundations. It welcomed the essential role played by the Authority which, in complete independence and in close collaboration with Parliament, ensures that European political parties and foundations respect the legal framework, guarantee transparency for citizens and contribute to the integrity of Parliament's elections.
