2024/0176(BUD) - 27/11/2024 - Budgetary joint text approved by Parliament

The European Parliament adopted by 418 votes to 185, with 67 abstentions, a legislative resolution **approving the joint text** on the draft general budget of the European Union for the financial year 2025 approved by the Conciliation Committee under the budgetary procedure.

According to the elements for joint conclusions:

- the overall level of commitment appropriations in the 2025 budget is set at **EUR 199 438.4 million**. Overall, this leaves a margin below the MFF ceilings for 2025 of EUR 800.5 million in commitment appropriations;
- the overall level of payment appropriations in the 2025 budget is set at **EUR 155 209.3 million**. Overall, this leaves a margin below the MFF ceiling for 2025 of EUR 28 302.7 million in payment appropriations;
- the Flexibility Instrument for 2025 is mobilised in commitment appropriations for an amount of **EUR 1 162.4 million**, of which EUR 4.7 million for sub-heading 2a Economic, social and territorial cohesion, EUR 1 136.8 million for sub-heading 2b Resilience and Values, EUR 15.6 million for heading 5 Security and Defence and EUR 5.2 million for heading 6 Neighbourhood and the World.

In accordance with the MFF Regulation, the Single Margin Instrument is mobilised in commitment appropriations for an amount of **EUR 721 million** for heading 7 European Public Administration.

The 2025 payment appropriations related to the mobilisation of the Flexibility Instrument in the years 2022 to 2025 are estimated by the Commission at EUR 1 398.8 million.

Expenditure headings of the financial framework - commitment appropriations

Heading 1 – Single Market, Innovation and Digital

The commitment appropriations are set at the level proposed by the Commission in the draft budget as amended by Amending Letter No 1/2025, but with adjustments agreed by the Conciliation Committee (covering Horizon Europe and the program for a Digital Europe).

The Conciliation Committee agrees to make commitment appropriations available again on the research budget lines for a total of EUR 115.9 million in commitment appropriations, i.e. an increase of EUR 20 million as compared to the level proposed by the Commission in the Draft Budget, as amended by Amending Letter 1/2025.

The agreed level of commitment appropriations is set at **EUR 21 480.1 million**, leaving a margin of EUR 115.9 million under the expenditure ceiling of heading 1.

2025 general budget: all sections

2024/0176(BUD) - 13/09/2024 - Council position on draft budget

On 13 September 2024, the Council adopted its position on the **draft general budget of the European Union for the financial year 2025**.

The technical annexes, set out in Addendum 2 to this explanatory memorandum, contain a breakdown by heading of the MFF 2021-2027, as well as corresponding detailed figures for each institution and by title.

The Council's position on the DB 2025 that would amount to:

- **EUR 191 526.99 million in commitment appropriations** (EUR 199.7 billion in commitments in the Commission's DB 2025);
- **EUR 146 214.61 million in payment appropriations** (EUR 152.7 billion in payments in the Commission's DB 2025).

The total amount of payment appropriations provided for in the Council's position on the DB 2025 corresponds to 0.79 % of the EU gross national income (GNI).

Approach taken by the Council

The Council's position on the 2025 DB has been defined in accordance with the guiding principles of prudent and realistic budgeting and the provision of sufficient resources to support clearly defined priorities.

These guiding principles have led the Council to undertake a detailed analysis of the commitment appropriations under each programme and action by budget line, in order to ensure:

- a realistic absorption capacity;
- an appropriate acceleration of the implementation of programmes by avoiding excessive increases compared to 2024;
- sufficient margins under the ceilings to deal with unforeseen circumstances.

The result of the Council's assessment is reflected in the proposal to **adjust downwards the commitment appropriations by EUR 1 519.95 million**. The proposed adjustments in headings 1 (Single Market, Innovation and Digital), 2 (Cohesion, Resilience and Values), 3 (Natural Resources and Environment), 4 (Migration and Border Management), 5 (Security and Defence) and 6 (Neighbourhood and the World) aim at reducing lines that were increased compared to the voted budget 2024, mainly in order to prevent risks in terms of absorption capacity, and to limit the increase of support expenditure to 2 % compared to the voted budget 2024.

A **targeted adjustment** is proposed for sub-heading 2b (Resilience and Values) for the European Union Recovery Instrument (EURI) line. The proposal is based on a more conservative approach, in line with prudent budgeting and sound financial management, with respect to the financing costs of NextGenerationEU (NGEU). Consequently, in line with the revised multiannual financial framework (MFF) Regulation, the Council has sought other financing possibilities, by reducing the appropriations of a few programmes in order to create more margins. The suggested adjustment for the EURI line will limit the use of both the Flexibility Instrument and the newly created EURI Instrument to cover the overrun costs.

An **upward adjustment** under headings 4 (Migration and Border Management), 5 (Security and Defence) and 6 (Neighbourhood and the World) is also suggested to reinforce the Union's priorities and support front-line Member States in the current geopolitical context (headings 4 and 5) and to ensure a sufficient level of humanitarian aid available in 2025, including for Ukraine, Georgia and Moldova (heading 6).

As regards **payment appropriations**, the result of the Council's assessment is reflected in the proposal to adjust the level downwards by EUR 875.85 million.

As regards **administrative expenditure**, the result of the Council's assessment is reflected in the proposal to adjust the level downwards by EUR 14.98 million. This reduction results from savings from expenditure related to buildings, and mainly from cutting the entire amount for housing allowances requested by institutions based in Luxembourg.

EXPENDITURE BY HEADING OF THE MFF 2021-2027

The Council amended the commitment appropriations (C/A) and updated the payment appropriations (P/A) for the 2025 DB as follows:

3. Natural Resources and Environment (heading 3 of the MFF): EUR 57 271 078 739 in c/a and EUR 52 680 321 247 in p/a

- the Council established the level of commitment appropriations, targeting a total reduction of -EUR 5 million in the appropriations requested in the DB 2025, related to: Security (-EUR 10 million on the Internal Security Fund (ISF)); Defence (+EUR 5 million).

The margin available under heading 5 would be EUR 5 million.

6. Neighbourhood and the World (heading 6 of the MFF): EUR 16 279 984 152 in c/a and EUR 14 427 146 291 in p/a

- This heading is characterised by a total increase of +EUR 21.74 million in the appropriations requested in the DB 2025 related to: External Action (+EUR 21.74 million).

The margin available under heading 6 therefore stands at EUR 23.02 million.

7. European Public Administration (heading 7 of the MFF): EUR 12 599 384 162 in c/a and EUR 12 599 384 162 in p/a

For the European Parliament, it is suggested that the DB 2025 (Section I) be approved as it stands (EUR 2 498.1 million).

As there would be no margin available under heading 7, it is suggested to accept the mobilisation of the Single Margin Instrument for a total amount of EUR 475.38 million, of which EUR 328 million for administrative expenditure of the institutions and EUR 147.38 million for pensions of all institutions and bodies, to allow the institutions to meet their legal obligations.

It is suggested to maintain the appropriations entered in the DB 2025 for the Solidarity and Emergency Aid Reserve, the European Globalisation Adjustment Fund, the Brexit Adjustment Reserve and the Ukraine reserve. The commitment appropriations entered in the DB 2025 for the Flexibility Instrument are established at EUR 915.85 million (-EUR 276.98 million). The payment appropriations are maintained as they stand in the DB 2025.

The commitment appropriations entered in the DB 2025 for the Single Margin Instrument are established at EUR 475.38 million (-EUR 14.98 million). The commitment appropriations entered in the DB 2025 for the EURI Instrument are established at EUR 707.48 million (-EUR 531.60 million).

Revenue

It is suggested to accept the DB 2025 after the technical adjustments arising from the changes made to expenditure in the Council's position.

2024/0176(BUD) - 12/07/2024 - Commission draft budget

PURPOSE: presentation by the Commission of the EU's draft annual budget for 2025.

CONTENT: in February 2024, the European Parliament gave its consent to, and the Council unanimously agreed on the first ever **mid-term revision** of the expenditure ceilings in the multiannual financial framework (MFF).

The agreement reached on the mid-term revision of the MFF reflects the importance of equipping the EU budget with the necessary means to continue delivering on the priorities for Europe and for our partners, which was underscored by key sectoral proposals. In particular, the revision **restores the Union's financial capacity to address a series of exceptional challenges**; first and foremost Russia's unprovoked and unjustified war of aggression against Ukraine, the continued migratory pressures and their root causes, responding to the crisis in the Middle East and reinforcing the EU's capacity to respond to natural disasters and the global competition on key critical technologies and materials, as well as strengthening our defence capabilities.

DRAFT BUDGET 2025

The draft budget 2025 sets appropriations of **EUR 199.7 billion in commitments** (corresponding to 1.08% of GNI) and **EUR 152.7 billion in payments**, including special instruments, leaving EUR 31 billion of margin below the payment ceiling for 2025. The budget will be complemented by an estimated **EUR 72 billion of disbursements under NextGenerationEU**. This financial envelope will support the EU in meeting its political priorities while integrating the changes agreed in the mid-term revision of the MFF in February 2024.

The draft budget 2025 and the accompanying updated financial programming for 2026-2027 together reflect the outcome of the MFF revision for the remaining years of the MFF period (2025-2027). This covers in particular:

- stable and predictable support to Ukraine, through the Ukraine Facility;

- migration, with funding addressing the root causes of irregular migration and forced displacement, as well as reinforced funding for migration and border management in the most affected Member States, to accompany a balanced approach to migration that is both fair and firm;

- green and digital transitions, creating jobs while strengthening Europe's strategic autonomy and global role. It will enable support to key critical technologies through the Strategic Technologies for Europe Platform (STEP);
- increased funding for flagship programmes such as Erasmus+, the Connecting Europe Facility (CEF) and the Single Market Programme (SMP), while the large-scale funding of research and innovation activities under Horizon Europe stays broadly stable until 2027;
- funding for other recently agreed EU initiatives or shared priorities, such as the European Chips Act, the Union Secure Connectivity Programme, the set-up of the Carbon Border Adjustment Mechanism (CBAM), the Anti-Money Laundering Authority (AMLA) and the European Defence Industry Programme (EDIP);
- continued support for Syrian refugees in Turkey and the wider region, the Southern Neighbourhood, including the external dimension of migration, and the Western Balkans.
- continued support for Syrian refugees in Türkiye and in the wider region, as well as for the Southern Neighbourhood, including for the external dimension of migration and the Western Balkans.

APPROPRIATIONS BY HEADING OF THE MFF 2021-2027

To meet the EU's various priorities, the Commission proposes to allocate the following amounts (in commitment appropriations):

Heading 1 - Single Market, Innovation and Digital: EUR 21.3 billion
