Erasmus+ programme 2028–2034

2025/0222(COD) - 16/07/2025 - Legislative proposal

PURPOSE: to establish the Erasmus+ programme for the period 2028-2034.

PROPOSED ACT: Regulation of the European Parliament and of the Council.

ROLE OF THE EUROPEAN PARLIAMENT: the European Parliament decides in accordance with the ordinary legislative procedure and on an equal footing with the Council.

BACKGROUND: on 16 July 2025, the European Commission unveiled its proposal for the next Multiannual Financial Framework (MFF) 2028-2034, a EUR 2 trillion budget designed to strengthen Europe's sovereignty, competitiveness, and resilience. This new MFF will significantly enhance the EU's capacity to deliver on core policies while addressing new and emerging priorities.

EU funding support to challenges that affect skills, education, training, youth, volunteering and sport has been provided through different programmes over the years. In the 2021-2027 multiannual financial framework (MFF), support was provided mainly through Erasmus+, the European Solidarity Corps, the European Social Fund+, the Framework for research and innovation, Horizon Europe.

The proposal for the next MFF aims at addressing complexities, weaknesses and rigidities' currently present in the Union's overall funding instruments with a long-term budget more focused, simpler, with fewer programmes and more impactful.

Moreover, common areas of action and objectives between the 2021-2027 European Solidarity Corps and Erasmus+ programmes highlight the potential for **enhanced synergy and regulatory coherence**. Bringing all learning mobility, volunteering, cooperation and active citizenship opportunities together provides a **single-entry point** to all opportunities offered by the Union for young people and organisations active in the field of youth, allowing for a more coordinated and effective approach, and easier access for potential participants and beneficiaries.

CONTENT: against this background, the proposed regulation establishes **Erasmus+ 2028-2034**, the Union programme for action in the fields of education and training and also in the fields of youth and sport and lays down the objectives of the Programme, its budget for the period 2028-2034, the forms of Union funding and the rules for providing such funding. This Regulation also sets up the European Voluntary Humanitarian Aid Corps.

Erasmus+ will be reinforced to **EUR 40.8 billion**. This enhanced funding will contribute to a resilient, competitive, and cohesive Europe by promoting high quality lifelong learning, enhancing skills and competences for life and for jobs for all, while fostering Union values, democratic and societal participation, solidarity, social inclusion and equal opportunities, in the EU and beyond.

The proposal sets out the provisions for an Erasmus+ programme that covers education and training, youth and sport and integrates the opportunities offered by the European Solidarity Corps including the European Voluntary Humanitarian Aid Corps under the 2021-2027 MFF, offering a **comprehensive EU instrument** to contribute to high quality lifelong learning, enhance skills and key competences for all, for life and for jobs, while promoting societal engagement and civic education, solidarity and social inclusion.

The Programme is structured around a pillar on **learning opportunities for all** and a pillar on **capacity building** that combines cooperation among organisations and institutions and support to policy development, covering all fields of education and training, youth and sport.

Erasmus+ programme 2028–2034

2025/0222(COD) - 22/10/2026 - Text adopted by Parliament, partial vote at 1st reading/single reading

The European Parliament adopted by 454 votes to 34, with 93 abstentions, **amendments** to the proposal for a regulation of the European Parliament and of the Council establishing the Erasmus+ programme for the period 2028-2034.

The matter was referred back to the committee responsible for interinstitutional negotiations.

The main amendments adopted in plenary are as follows:

Programme objectives

The programme should aim to promote **high-quality, inclusive lifelong learning** and thus contribute to a resilient, competitive, and cohesive Europe. It should:

- emphasise **mobility for education and training purposes** and to be an essential instrument for furthering the development of the European Education Area, responding to future trends in education in order to conform to societal and technological developments and building the Union of Skills;

- foster a **European sense of belonging** and understanding between diverse cultures, enabling the strengthening of a European identity that exists alongside national identities.

The programme should strengthen the **European dimension of sport**, which plays a vital role as a driver of social inclusion, health, education, and community development. It should support the educational and training mobility of athletes and those active in grassroots sport, as well as the educational and training mobility of sports personnel.

In the field of **youth and volunteering**, the programme should support: (a) learning mobility of young people, including youth exchanges, DiscoverEU, activities supporting youth participation and the learning mobility of youth workers; (b) **European Solidarity Corps** volunteering and solidarity activities; (c) the **European Voluntary Humanitarian Aid Corps**.

Learning mobility should be accompanied by support to teaching and learning about the Union, including **European integration, values and citizenship**.

European added value

The programme should support only those actions and activities which present European added value. The European added value of the actions and activities of the programme should be ensured, for example, through their: (i) transnational character, particularly with regard to learning mobility and cooperation aimed at achieving a sustainable systemic impact; (ii) complementarity and synergies with other programmes and policies at national, Union and international level; (iii) contribution to the effective use of Union transparency and recognition tools.

Erasmus+ scholarships

The programme should support Erasmus+ scholarships in strategic educational fields, for the study period abroad in joint study programmes, when co-funded from additional resources or a Union contribution from another programme; the monthly funding amount for these scholarships from Erasmus+ should be limited to the maximum monthly amount of mobility grants so as not to reduce funding available for learning mobility, inclusion measures and transnational cooperation under the programme.

The strategic educational fields eligible for support should be defined on the basis of transparent criteria, evidence of Union-level skills needs. The Union's investment in those scholarships should be proportionate and designed to maximise its added value for the Union, while avoiding outcomes that would contribute to brain drain from the Union.

Inclusion and diversity

When implementing this regulation, the Commission, Member States and third countries associated to the programme should ensure an inclusive approach across all activities, paying particular attention to equal opportunities, accessibility and the removal of social, economic, geographical and structural barriers to participation. At least **20%** of all mobility participants shall be individuals with fewer opportunities.

The Commission may adjust or may authorise the national agencies to adjust, on the basis of objective and transparent criteria, the financial support mechanisms to improve access to people with fewer opportunities. Such criteria should take into account: (i) **differences in living costs, housing costs, inflation and purchasing power** between host countries, regions and cities; (iii) higher participation costs for individuals travelling from or to outermost regions, island territories, and overall expensive-to-reach locations.

Budget

Members propose setting the budget for the programme for the implementation of the regulation for the period 2028-2034 at **EUR 47 387 963 000** in current prices, compared to the EUR 40 827 000 000 proposed by the Commission.

Budgetary envelopes are clearly defined for the different areas of action: education and training (74.6% of the total programme budget), higher education (35%), vocational education and training (21.5%), school education (15.5%), youth and volunteering (15%) and sport (4.1%).

Funding

The programme should be implemented in synergy with other Union programmes and funds, such as the European Competitiveness Fund, Horizon Europe, Global Europe, National and Regional Partnership Plans and funding delivered through them such as the European Social Fund and the Youth Guarantee.

Lastly, the programme should strengthen ties with long-standing partner countries such as the United Kingdom and Switzerland.
